

ProSol

by the Irish Equine Centre

DID YOU KNOW?

A horse cannot **consistently perform** to the best of its ability with a gut flora imbalance. ProSol is a unique probiotic solution **tailored to each horse**, containing live beneficial bacteria harvested from the horse's own faecal sample, which helps to restore gut flora **PLUS** the IEC has a **bacterial cryopreservation service** to preserve these bacteria for the horse's lifetime – providing a safety net for your horses' lifetime.

Using **ProSol** ensures your horses gut flora is healthy thereby helping to increase immunity, prevent disease & improve performance.

“I have been using the ProSol probiotic service for some time and I appreciate its innovative concept and the fact that it's a natural product.”

It has become an important tool for training my racehorses and maintaining their wellbeing.”

Joseph O'Brien,
Classic & Group 1
winning racehorse
trainer, Tipperary

ProSol contains **only the horse's own beneficial bacteria suspended in sterile water.**

Contact the Irish Equine Centre to talk to our experienced microbiologists who will formulate the probiotic unique to your horse.
